

#EUHPP LIVE WEBINAR

Estimating the Cancer Burden in the EU

Insights from the European Cancer Information System

2 February 2026, 10.00 – 11.00 CET, BRUSSELS TIME

Dear colleague,

We invite you to join this #EUHPP Live Webinar co-organised with European Commission Joint Research Centre.

Join us for a deep dive into the recently released cancer incidence and mortality estimates for 2024 in the European Union, presented in the European Cancer Information System (ECIS). This webinar will introduce attendees to the collaborative efforts of the European Population-based Cancer Registries, focusing on how data are validated and harmonized to produce reliable cancer burden indicators. Attendees will explore the powerful capabilities of ECIS, including its statistical analyses, visualisation tools, and the challenges posed by data gaps across Europe. Additionally, the session will present the 2024 cancer burden estimates, underscoring regional disparities, and offer projections of trends up to 2040.
